Essential

Design Peter Ivone

5

Aereo, lineare. E' Essential, design di Peter Ivone. Il parallelepipedo in metallo tubolare cilindrico verniciato con polveri epidossiche, nei colori black, grey, sandy e white, che forma la struttura, è svuotato fino a mantenere soltanto le linee perimetrali del telaio nudo. I piani della seduta, come sospesa nella leggera struttura, e dello schienale sono realizzati con un intreccio fittissimo in corda di poliestere nei colori oliva, nero, taupe blu pavone e senape.

La collezione Essential oltre alla poltrona, il lettino, include elementi modulari utilizzati per creare infinite configurazioni di sedute.

Dainty, linear. This is Essential, by Peter Ivone. The cylindrical tubular metal structure was emptied up to its frame and it is painted with epoxy powder. It is available in: black, taupe, and white. Its seat - like floating on the light structure - and back are made of a densely woven polyester rope in olive, black, taupe, indigo blue, and mustard colors.

The Essential collection, in addition to the armchair and sun lounger, offers modular items to create infinite seat combinations.

Infinity

Design Braid lab

25

Rotondità asciutta che rimanda agli anni '50 e effetto see - through per Infinity. La struttura delle sedute della collezione, divano due posti, poltrona, poltroncina pranzo e sgabello alto, è in alluminio verniciato con polveri epossidiche nei colori white e grey sandy. La corda a sezione circolare nei colori bianco, beige e taupe è intrecciata attorno alla struttura creando un effetto di vibrante semi trasparenza. Le cuscinate sono in tessuto idrorepellente. Acciaio verniciato negli stessi colori per il tavolo da pranzo e il tavolino basso, entrambi con piano in cristallo retro verniciato.

A lean roundedness recalling the 50s and a see-through effect: this is Infinity. It consists of a two-seat sofa, an armchair, a dining chair, and a tall barstool; the aluminum frame of the seats in the collection is coated with epoxy powder and it is available in white and grey sandy. The round-cut rope, available in white, beige, and taupe is woven around the frame, thus giving a semi-transparent and vibrant effect. The cushions are made of a waterproof fabric. The dining table and the side table are both provided with a back-painted plate glass counter top.

Elegant

Design Braid lab

Cromatismi sofisticati e sapore sartoriale contraddistinguono la seduta Elegant. Lo schienale presenta un intreccio della fibra in tre colori, bianco, nero e melange, che crea un effetto tessuto pied de poule. La struttura è in alluminio verniciato con polveri epossidiche color grigio grafite. Il cuscino della seduta è in tessuto idrorepellente della collezione Braid. L'anima evergreen di Elegant la rende perfetta in abbinamento con il tavolo Teodora.

The Elegant seats are marked by vibrant bright colors and a high-fashion style. The fiber in the back shows a three-color braiding: white, black, and beige, which gives a pied de poule effect in the fabric. The frame is made of aluminum, coated with epoxy powder in graphite grey. The seating cushion is made of a waterproof fabric belonging to the Braid collection. The evergreen soul of Elegant makes it perfect when combined with the Teodora table.

Easy

Design Braid lab

Versatili, adattabili e pratiche. Le due sedute Easy, sedia e poltroncina con braccioli, sono state pensate per essere utilizzate in ambienti e situazioni molto diversi. Perfette per spazi domestici e pubblici, indoor e outdoor. Due autentici passe-partout. Entrambe sono realizzate in alluminio verniciato con polveri epossidiche in sei varianti colore: black, white, taupe, grey sandy, grey, champagne. La sedia, in più, è impilabile

Versatile, adaptable, and practical. The two Easy items, chair and armchair, are designed to be used in different rooms and situations. They are ideal for indoor and outdoor public and private spaces. Two authentic master keys. They are both made of epoxy powder coated aluminum in six different colorways: black, white, taupe, grey sandy, grey, champagne. The chair is stackable.

Braid Lab

Braid Lab è l'atelier creativo creato nel 2005 e subito diventato il fulcro innovativo dell'azienda. Ricerca estetica, sviluppo di prodotti e selezione di materie prime di alta qualità sono le principali aree di sua competenza.

Il metodo di lavoro è rigoroso. Dopo un attento studio delle tendenze stilistiche e delle esigenze commerciali il Braid Lab definisce il brief del progetto, che traccia le linee guida della nuova collezione. Da quel momento il designer libera la sua creatività e parte con la progettazione.

Schizzi e disegni tecnici dettagliati, prototipi in scala 1:1, test effettuati su materiali, lavorazioni e finiture diverse, aggiustamenti di dimensioni e forme, prove di resistenza e messa a punto finale sono le tappe del protocollo di sviluppo dei prodotti del Braid Lab.

Solo dopo avere perfezionato il prodotto in ciascuna di queste fasi, nel rispetto degli standard qualitativi dell'azienda, si procede con la produzione e il lancio delle collezioni sui mercati italiani e internazionali.

Nell'archivio del Braid Lab insieme a disegni, schizzi, campioni, prototipi sono custoditi conoscenze, saper fare, capacità, testimonianze di sogni realizzati e da realizzare, oltre a tutti i materiali che raccontano 60 anni di storia aziendale. Gusto contemporaneo, lavorazioni artigianali, finiture ricercate e materiali pregiati della migliore qualità sono da sempre il fil rouge di tutta la produzione Braid.

Braid Lab is a creative atelier which was founded in 2005 and quickly became the company cornerstone as regards innovation. Its main areas of expertise are aesthetical research, product development and high-quality raw materials selection.

Its working method is meticulous. After a proper study of stylistic trends and commercial needs, Braid Lab defines the project brief, which creates guidelines for the new collection. From that moment on, the designer sets his imagination free and the planning begins.

Braid Lab products development process consists of the following stages: sketches and detailed designs, 1:1 scale prototypes, tests made on raw materials, different manufacturing and finishes, changes in sizes and shapes, strength tests and final development.

Once the best possible result is obtained in each phase, according to the quality standards of the company, production is carried on and launched into the Italian and international markets.

Braid Lab knowledge consists of detailed designs, sketches, samples and prototypes as well as know-how, craftsmanship, talent, fulfilled wishes and long-cherished dreams, together with all the materials that featured a 60-year tradition . Contemporary style, handmade production, refined finishes and best-quality selected materials have always been the silver thread of the whole Braid collection.

Peter Ivone

Peter Ivone laureato presso l'Università “La Sapienza” di Roma collabora con importanti studi di architettura, con i quali partecipa ad alcuni concorsi internazionali di architettura urbana. Nel 2001 apre il suo studio.

L'attività progettuale spazia su importanti commesse di edilizia residenziale, commerciale e turistica di grandi metrature e di elevata complessità: da un complesso a Bari di circa 250 unità residenziali, al progetto per un centro commerciale a Castellana Grotte, solo per citarne alcuni, fino a interventi su prestigiose masserie pugliesi destinate a utilizzo turistico alberghiero.

I suoi progetti respirano la cultura mediterranea nei quali sono immersi. I giochi dei volumi contrapposti sono studiati attentamente per dialogare con la luce naturale che sottolinea sempre in modo suggestivo le architetture di Peter Ivone.

La progettazione secondo principi di sostenibilità e risparmio energetico diventa sempre più importante nella filosofia dello studio che affina le tecniche e le conoscenze per armonizzare i progetti con l'ambiente circostante e ottimizzare le risorse energetiche. Peter Ivone ha disegnato vari prodotti di arredo custom per i suoi progetti di interior. Nel 2018 crea per la prima volta una linea di sedute da esterno, Essential, che entra nel catalogo di Braid, azienda specializzata in arredamento outdoor di alta gamma.

Peter Ivone graduated in Architecture at the University of “La Sapienza” in Rome.

After collaborating with important design firms thanks to his participation in some international urban design contests, he opened his own company in 2001.

Among his creations there are relevant and complex wide residential, commercial and turistic commissions.

Thus far, he has designed more than 700 properties, half of them in just one residential area in Bari, malls for a total of 20,000 square meters, 200 rooms in hospitality facilities and luxury typical Apulian masserias.

His projects reflect the Mediterranean culture that surrounds them: opposed volumes specifically designed to blend with the natural light that enhances his works.

Sustainability and energy saving are the keywords of the philosophy of his company, finishing its techniques and know-how to make the environment and his designs as one thing.

Peter Ivone also designed several custom interior items. In 2018, for the first time he created a collection for outdoor seatings – Essential, featured in Braid catalog, a well-established company in.
